

# COLBY T. LEED

## Software Developer & Full-Stack Engineer

Everett, WA | 206-538-7716 | [colbyleed@yahoo.com](mailto:colbyleed@yahoo.com) | [LinkedIn](#) | [Portfolio](#)

---

## PROFESSIONAL SUMMARY

Results-driven software developer with full-stack expertise in automation and scalable application design. Currently building a freelance development business specializing in Go backend services and Angular frontends, with a proven track record of delivering innovative solutions that drive digital transformation.

---

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, TypeScript, Go, HTML5, CSS

**Frameworks:** Angular, Flask, Spring Boot, Node.js, Express, React, Hibernate, jQuery

**Databases:** MySQL, MongoDB, PostgreSQL

**Tools:** AWS, Google Apps Script, Postman, Linux, Git, Agile, ITIL, Apache Tomcat

---

## PROFESSIONAL EXPERIENCE

### Freelance Software Developer | Independent | Feb 2025 – Present

- Build custom software solutions for clients using Go backends and Angular frontends
- Develop high-performance APIs and microservices with focus on scalability
- Manage full development lifecycle from client consultation to deployment

### Junior Developer | MustWants | Mar 2023 – Feb 2025

- Built robust applications using MERN stack for digital transformation initiatives
- Integrated third-party APIs and AWS services for optimized performance
- Participated in Agile development cycles and continuous improvement

### Maintenance Technician Lead & Safety Officer | Viome Inc. | Nov 2023 – Feb 2025

- Automated reagent management with Google Apps Scripts, improving data tracking accuracy
- Developed full-stack web application for inventory tracking, reducing manual entry by 80%
- Implemented automated batch creation process, boosting accessioning efficiency

### Clinical Laboratory Support | Various Medical Centers | 2012 – 2022

- Managed high-volume specimen processing and trained new personnel

## Healthcare Specialist | WA Army National Guard | 2009 – 2016

- Delivered medical aid and led rapid response teams
- 

## EDUCATION & CERTIFICATIONS

**Bachelor of Science in Computer Science** | Western Governors University | *Expected May 2027*

**Web Development Certification** | Coding Dojo | *Dec 2022*

**Certifications:** Linux Foundations, ITIL 4 Foundations

---

## KEY PROJECTS & ACHIEVEMENTS

- **Go Backend Development:** Building personal projects using Go for backend services, preferring Go's performance over Java for modern applications
  - **Laboratory Management System:** Developed full-stack application that reduced manual data entry by 80% and improved tracking accuracy
  - **Angular Applications:** Building scalable frontend applications with responsive design and cloud service integration
- 

## WHAT SETS ME APART

- **Entrepreneurial Drive:** Building freelance development business with technical and business acumen
- **Modern Tech Stack:** Specializing in Go backends with Angular frontends for optimal performance
- **Unique Background:** Healthcare experience provides valuable user perspective and system requirements understanding
- **Continuous Learning:** Pursuing CS degree while working full-time, demonstrating commitment to growth
